NOTICE OF ACTION TAKEN

Docket OST-98-4389

This serves as interim notice to the public of the action described below, taken orally by the Department official indicated; the confirming order or other decision document will be issued as soon as possible.

Applicant: **Heavylift-VolgaDnepr Ltd.**

Date Filed: August 27, 1998

Relief requested: Exemption from 49 U.S.C. 40109(g) to operate one one-way emergency cabotage cargo charter flight between Wilmington, OH, and Seattle, WA; on August 31, 1998, using Russian-registered Antonov 124 aircraft carrying GE90 engines and related parts for installation on Boeing's B 777 aircraft.

Applicant representative: Lester Bridgeman (334) 432-1414

Responsive pleadings: Heavylift-VolgaDnepr served its application on those U.S. carriers operating large all-cargo aircraft. Each carrier indicated that it did not have aircraft available to conduct the proposed operations, and that it had no comment or did not oppose grant of the requested authority to Heavylift-VolgaDnepr.

DISPOSITION

Action: Approved

Action date: August 28, 1998

Effective dates of authority granted: August 31 - September 3, 1998

Basis for approval: We found that our action was consistent with all the relevant criteria of 49 U.S.C. 40109(g) for the grant of an exemption of this type, and that the grant of this authority was required in the public interest. Moreover, based on the representations of the U.S. carriers, we concluded that no U.S. carrier had aircraft available which could be used to conduct the operation at issue here. We also found that grant of this authority would prevent unreasonable hardship to Boeing.

Except to the extent exempted/waived, this authority is subject to the terms, conditions, and limitations indicated:

☒ Standard exemption conditions (attached)

☐ Foreign air carrier permit conditions

Special conditions/Partial grant/Denial basis/Remarks: The applicant shall comply with an FAA-approved flight routing for the authorized flight.
